Product Data Sheet July '06 Update

Product Name: Whirlfloc T
Product Code: 5B00573
Date Printed: April 18, 2007

General Description

WHIRLFLOC T is an extract of red seaweed specifically formulated to coagulate unstable proteins in brewery worts. The product is produced in a self dispersing tablet form for ease of use.

Application

WHIRLFLOC T is used as a processing aid in the manufacture and production of beer.

Specification

All methods of analysis available on request

Appearance :	Yellow/ white tablet
* Fining Efficiency :	Passes test
Salmonella :	absent in 10g
E.Coli :	absent in 5g

*It is recommended that a fining trial is performed to determine optimum dose rate.

Legal Status

WHIRLFLOC T conforms to M.A.F.F. Report on the Review of additives and Processing Aids used in the Production of Beer (FAC/REP/26).
It contains the following components:

Carrageenan	E407a
Adipic acid	E355
Sodium bicarbonate	E500(ii)
Sodium carbonate	E500(i)
Sterile talc B.P.	E553(b)
Silica	E551
Stearic acid	E570

Local food regulations should always be consulted with respect to specific applications and necessary declarations. Legislation may vary from country to country.

Storage

In unopened original Kerry Bio-Science packaging, **WHIRLFLOC T** has a shelf-life of 24 months from date of manufacture. Store in cool, dry conditions (5^{o}C - 20^{o}C).
Product stored longer than recommended shelf-life should be retested before use, to confirm quality. Kerry Bio-Science will be happy to perform this function and/or send details of the assay procedure to be used.

Packaging

WHIRLFLOC T is supplied in 25kg plastic lined cardboard boxes.
